

TRON 2.0 File Downloads

Patches and Utilities

File	Description	Requirements/Recommendations	OS Compatibility
lZArc	Free utility that can extract files from .ZIP, .RAR, .7Z , and other compression formats.		98/Me/2000/XP/Vista/7/8/10
Stuffit Expander	Free utility for the Mac that can extract files from .ZIP, .RAR , and other compression formats.		OSX
3D-Analyze	A program that allows you to bypass the Transform and Lighting (aka T&L or TnL) check, if your video card doesn't meet the game's minimum hardware requirements. The game may run slowly as a result, but at least it will run.	<ul style="list-style-type: none"> Find out how to use it, HERE. 	98/Me/2000/XP
TRON 2.0 Demo	This is the final "Gold" TRON 2.0 demo that Monolith released, with both Single Player and Multiplayer content. If you don't already own TRON 2.0 and want to find out if it's any good, then try out this demo. But it doesn't really do justice to the full game.	<ul style="list-style-type: none"> This demo is for PC owners only. No Mac demo was ever released. The demo version will not allow you to play online together with people who have the full version of the game. The demo version will not allow you to use custom maps or mods created by other fans. 	98/Me/2000/XP/Vista/7/8/10

Unofficial TRON 2.0 v1.042 Patch	Unofficial v1.042 English Patch, that improves on the Official one.	<ul style="list-style-type: none"> • You will not be able to play Multiplayer online without this patch and the Killer App Mod below! • Note that all your older Single Player saved games will become useless, and you will have to start over! • Download the Killer App Mod to change the Unofficial Patch to Français/Deutsch/Italiano/Español. 	98/Me/2000/XP/Vista/7/8/10
TRON 2.0 Mac OSX 10.4 Patch	Mac Version OSX 10.4 (Tiger) Patch, that fixes the problems with the game not installing on Tiger and rejecting a valid serial number (CD key).	<ul style="list-style-type: none"> • Go HERE for a workaround that allows the game to run on OSX 10.5 (Leopard) or later. 	OSX 10.4 (Tiger)
Game Booster	A free utility that lets you shut down unneeded tasks and services, to help improve your game performance.		2000/XP/Vista/7/8/10
Radeon Pro	Free utility that allows you to control anti-aliasing, vsync, and many other settings on ATI/AMD video cards to improve the visuals or performance of your games.		XP/Vista/7/8/10
Nvidia Inspector	Free utility that allows you to control anti-aliasing, vsync, and many other settings on Nvidia video cards to improve the visuals or performance of your games.		XP/Vista/7/8/10
Game Save Manager	Free program that lets you back up saved games from titles like TRON 2.0, TRON Evolution, and many others.		XP/Vista/7/8/10

Maps

File	Description	Requirements/Recommendations	OS Compatibility
------	-------------	------------------------------	------------------

<p>Complete Map Pack 02.21.2013 release</p>	<p>This new self-installing map pack contains every custom Multiplayer map released as of 02/21/13. Now it's easier than ever to obtain all the Multiplayer maps and install them with just a few clicks of the mouse. Every Light Cycle, Disc Arena, and Derez map all in one download. The installed maps require about 2.2 GB of hard drive space.</p>	<ul style="list-style-type: none"> • Using a download manager is strongly recommended. • The Complete Map Pack will not work on the Macplay OSX version of TRON 2.0, or the PC demo version. But the PC version of TRON 2.0, along with all of the game's maps and mods, can be made to work on an Intel Mac by following this guide. 	<p>98/Me/2000/XP/Vista/7/8/10</p>
---	---	---	-----------------------------------

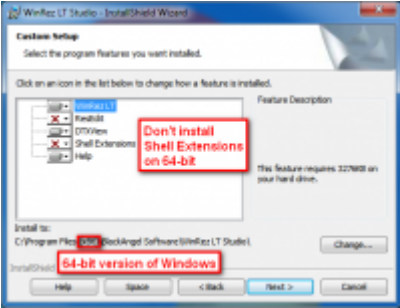

Mods

File	Description	Requirements/Recommendations	OS Compatibility
<p>TRON 2.0: Killer App Mod v1.1a</p>	<p>The TRON 2.0: Killer App Mod enhances the game in many ways, including: 16:9 and 16:10 widescreen support, adding new characters to Multiplayer, new KMX Skins that replace the previous release along with other newly created skins, new Light Cycle colors, new weapons in Derez, other game fixes, and much more. It also adds Français/Deutsch/Italiano/Español language support to the Unofficial v1.042 Patch. New to Version 1.1a of the mod is compatibility with the Steam version of TRON 2.0, easier installation, v1.1 bug fixes, and restored Multiplayer support in-game on both the CD/DVD and Steam versions.</p> <p>Version 1.1a of the Killer App Mod restores Multiplayer in-game on both the CD/DVD and Steam versions of TRON 2.0.</p> <p>The Adobe Flash Plugin is needed to display this content.</p>	<ul style="list-style-type: none"> • Requires Unofficial v1.042 Patch to be installed first. • Everyone must be using the mod together online in order to benefit from the new features in Multiplayer, this includes the server hosting the game. • Note that all your older Single Player saved games will not load while the mod is enabled, but you will probably want to start over anyway due to the fixes to Single Player. • Will work with the Ancient Disc Mod as long as this is installed after it. • Will work with User Error as long as this is installed before it. • The Killer App Mod will not work on the Macplay OSX version of TRON 2.0, or the PC demo version. But the PC version of TRON 2.0, along with all of the game's maps and mods, can be made to work on an Intel Mac by following this guide. The Adobe Flash Plugin is needed to display this content. 	<p>Tested on XP/Vista/7/8/10, and should also work on 98/Me/2000.</p>

User Error v1.1a - Parts 1 and 2	<p>User Error is a Single Player expansion mod for TRON 2.0.</p> <p>It is recommended to install and play Part 1 first, then install and play Part 2.</p>	<ul style="list-style-type: none"> • Updated version that self-installs, includes widescreen support, and bug fixes. • Will work with the Killer App Mod as long as this is installed after it. • User Error will not work on the Macplay OSX version of TRON 2.0, or the PC demo version. But the PC version of TRON 2.0, along with all of the game's maps and mods, can be made to work on an Intel Mac by following this guide. 	<p>Tested on XP/Vista/7/8/10, and should also work on 98/Me/2000.</p>
Ancient Disc Mod	<p>The Ancient Disc Mod changes your Disc weapon in TRON 2.0 to look like the identity disc from the original TRON.</p>	<ul style="list-style-type: none"> • Requires Unofficial v1.042 Patch to be installed first. • Will work with the Killer App Mod as long as this is installed before it. • The Ancient Disc Mod will not work on the Macplay OSX version of TRON 2.0, or the PC demo version. But the PC version of TRON 2.0, along with all of the game's maps and mods, can be made to work on an Intel Mac by following this guide. 	<p>98/Me/2000/XP/Vista/7/8/10</p>
KMX Legacy Disc Mod v1.1a	<p>The KMX Legacy Disc Mod changes your Disc weapon in TRON 2.0 to look like the identity disc from the TRON Legacy sequel.</p>	<ul style="list-style-type: none"> • Requires Unofficial v1.042 Patch to be installed first. • Will work with the Killer App Mod v1.1, but the Killer App Mod does not fully support this new Legacy Disc mod. It will overwrite the Legacy Disc colors if you use the Mod Manager to change colors. Killer App Mod v1.2, when released, will fully support the KMX Legacy Disc Mod. • The KMX Legacy Disc Mod will not work on the Macplay OSX version of TRON 2.0, or the PC demo version. But the PC version of TRON 2.0, along with all of the game's maps and mods, can be made to work on an Intel Mac by following this guide. 	<p>98/Me/2000/XP/Vista/7/8/10</p>

Editing

File	Description	Requirements/Recommendations	OS Compatibility
------	-------------	------------------------------	------------------

<p>TRON 2.0 Self-Installing Editing Tools v1.2a</p>	<p>A self-installing version of the TRON 2.0 Editing Tools: including DEdit, FXEd, ModelEdit, and other tools. Extras include prefabs, .LTA Exporter, documentation, tutorial videos, WinREZ LT Studio, XN Resource Editor.</p>	<ul style="list-style-type: none"> • Tools installer works on 98/Me/2000/XP/Vista/7/8/10. • ResEdit component of WinREZ LT Studio only works on 2000/XP/Vista/7/8/10. • It's recommended to do a Custom install of WinREZ and not choose ResEdit as part of the install. Use XN Resource Editor instead. • If using a 64-bit version of Windows, do not install the Shell Extensions feature of WinREZ. 	<p>98/Me/2000/XP/Vista/7/8/10</p>
<p>Game Extractor Basic</p>	<p>A program that lets you open existing .REZ files and extract their contents, using a friendly GUI. This is a Java-based program that is especially useful to Mac owners (but also works on the PC), as it has some of the same functionality as WinREZ LT Studio.</p>		<p>XP/Vista/7/8/10 OSX</p>
<p>.DXF / .STL to Lithtech .LTA World Format Converter</p>	<p>Converts .DXF / .STL format geometry to Lithtech .LTA World geometry (used by TRON 2.0), to help create maps/levels in DEdit. Free modeling programs such as Blender can export to both the .DXF and .STL formats.</p>		<p>98/Me/2000/XP/Vista/7/8/10</p>

xMDK - xistence's Map Development Kit	<p>Map construction toolkit, consisting of Prefabs and Textures that can be used to help create your TRON 2.0 maps.</p> 		<p>98/Me/2000/XP/Vista/7/8/10</p>
